

TRANSPORT WEEK 2018

.....
Side event (in English) during
the Transport Week 2018*

.....
Cross border cooperation:
how to improve and finance
innovative transport practices

.....
*Event is free of charge

Goal of the event:

- To show how Interreg projects' best practices and solutions in transport technologies, services and investments make a change across borders
- To promote Interreg funding opportunities in the transport sector

.....

1) **Presentations by Programme representatives** showing results of implemented projects and how Interreg makes a difference, followed by short information about each Programme and available funding. Approx. 10-12 minutes each.

2) **Panel discussion** on questions concerning capitalisation and added value: Why should the business sector be interested in Interreg?

Why Interreg projects that make a difference outside the region are still sending back value to the region of origin? Where Interreg can still find its niche? How can cooperation with other funding initiatives be developed?

.....

Cross border cooperation: how to improve and finance innovative transport practices
