

PROGRAMME

The 10th edition of the Transport Week conference is returning to **Gdynia, Poland**, on **3-4 June, 2020**. We will tackle the state of the global economy and maritime industry's key trend in 2020, port expansion projects, secrets of public-private partnerships and more.

Topic highlights

- State of the global economy in 2020
- Key developments in the maritime industry to drive the port market in 2020
- Shape of the TEN-T policy in the near future
- IMO's Sulphur cap is here – consequences for maritime logistics and the port industry
- Public-private partnerships (PPPs) and the benefits they carry for port development projects
- Polish ports are expanding – case studies from major Polish players
- In-depth analysis of the Baltic ports market
- Infrastructure development – pitfalls to avoid on the path from planning to execution

FULL CONFERENCE PROGRAMME WILL BE UNVEILED AT THE BEGINNING OF MARCH 2020
